Katun® Performance™ Toners for use in

Kyocera Mita FS 2020/3920/4020-series

Printers

Katun PN's: See list on Page 2
OEM PN's See list on Page 2

Katun adds to its growing line of high-quality toners for use in Kyocera Mita printers with three new-build toner cartridges!

When you need OEM-equivalent performance without the high OEM cost, choose Katun® Performance™ new-build toner cartridges for use in Kyocera Mita FS 2020/3920/4020-series printers. These three toner cartridges each provide OEM-equivalent yields, image quality and overall performance.

Benefits:

◆ **Reduce Your Costs Without Compromising on Quality!**
In today's economic environment, most every business, whether large or small, is looking for cost savings and other ways to stay ahead of their competition. These three new Katun® Performance™ toners offer you just that – significant savings versus OEM supplies, without compromising on quality.

◆ **High Satisfaction and Consistent Performance with New-Build Katun® Toner Cartridges**
These Katun® Performance™ new-build toner cartridges provide OEM-equivalent performance. You can depend on consistent image quality and yields while avoiding premature failure and high defect rates, which can occur with some used or refilled cartridges.

◆ **OEM-Equivalent Kit Contents**
Installation of these Katun toners is clean and easy! There's never a worry about having to empty out waste toner, because, like the OEM, Katun includes a new waste toner bottle with each toner cartridge, as well as waste bags and installation instructions.

◆ **A Growing Product Selection for Kyocera Mita Applications**
Katun offers a wide and growing selection of printer cartridges for use in Kyocera Mita machines. Kyocera Mita dealers who have successfully utilized previous Katun® toner cartridges because of their consistent performance, high print quality and significant cost savings, will be equally satisfied with these new Katun® toner cartridges. For a complete list of products, pricing and availability, visit the Katun Online Catalogue at www.katun.com.

A Note Regarding RFID Tags
Although Katun does not include RFID tags in these cartridges, it is important to note that an RFID tag is NOT required for the cartridge or machine to function properly, nor are any of the critical end-user messages ("Ready," "Toner Low/Replace Toner") disabled. For more information regarding RFID tags in Kyocera Mita cartridges, please see Katun's "Tech Brief: Katun Toner Cartridges for use in Kyocera Machines" published May 2010.

July 2010

KATUN® PERFORMANCE®

Machine Overview

In April of 2009, Kyocera introduced the FS 2020/3920/4020 printer series, which was designed for midsize workgroups. The main difference between the models within the series is the output speed, which ranges from 37/35 ppm (letter/A4) for the FS 2020 to 47/45 ppm (letter/A4) for the FS 4020. They also differ in paper capacity and monthly duty cycles. These are very reliable machines that offer many features, such as large paper capacity, two-sided letter and legal printing, and a USB host interface, which allows users to print directly from a flash drive or other memory device. This machine series provides higher output speeds than the previously introduced FS 2000/3900/4000 printer series, which was released in 2006.

Model	Speed (ppm) Black / Color	Intro Date	Mfg Status	Markets	PLD
FS 2020 D	37/35	April 2009	Current	Worldwide	Copystar FS 2020 D (NA Only)
FS 3920 DN	42/40	April 2009	Current	Worldwide	Copystar FS 3920 DN (NA Only)
FS 4020 DN	47/45	April 2009	Current	Worldwide	Copystar FS 4020 DN (NA Only)

Product Characteristics

Model	OEM PN	Katun PN	Priced Per	Yield/Cartridge*	Kit Content
FS 2020 D	TK-340 - 1T02J00EU0 (Europe/Far East) TK-342 - 1T02J00US0 (North America/Latin America)	37345 (EU/FE) 37355 (NA/LA)	Priced Per Cartridge	12,000 pgs	(1) Toner Cartridge (1) Waste Toner Bottle (2) Poly Waste Bags Installation Instructions
